Hybrid Study Abroad in Cartagena, Colombia (Spring 2019)

- **Goals:** Increase cultural awareness, develop mapping app to monitor water quality along the Caribbean Sea, lead a humanitarian mapping workshop, and more!

- **When?** If accepted, you will work with fellow MCC students in Colombia remotely for 4-5 weeks spring 2019 before travelling to Colombia. Travel to Colombia will be determined by the project director and will likely be spring break (April 13-21). This date may change based on availability in Colombia.

- **Where?** MCC (4-5 weeks) & enroute/Cartagena, Colombia (4-5 days)

- **Eligibility:**
  - MCC student registered fall 2018 and spring 2019
  - United States Passport (or submit for application by Nov 13th) and up to date with routine vaccinations.
  - Interest in learning about global cultures, Spanish language, and mapping!
  - Four study abroad tracks that will require at least two of these courses: GEG 130, GEG 133, GEG 239, SPA 101 and/or SPA 102. See application for details.

- **Fully funded!** Airfare, lodging, one meal per day.

- **Important Dates:**
  - Application Due **Friday, Oct. 26, 2018**
  - Accepted students announced November 7th
  - Selected students must accept by Noon Friday, Nov. 9th. If you do not have a Passport, you must submit for a Passport by Nov 13th as well.
What is GIS & Technology?

Geospatial Info Science & Technology
Or Digital Mapping

Growing job demand! Workforce

Examples:
- Smart phone app
- Data science and BIG data!

Video: http://geospatialrevolution.psu.edu/trailer.php
COIL Integration into course

Virtual component
- 3 Zoom meetings
- Icebreaker
- Project plan & GIS
- Mapping instructions
- Google Docs + WhatsApp

Ice breakers:

Please tell us what is your favorite hobby (past time) and take a picture while doing that activity

1- Based on the picture you see, write three sentences guessing the type of personality of that person.
2- Read the sentence about your picture and see if the guess was correct or pretty close to being correct.

Por favor cuentanos, cual es tu pasatiempo favorito y tomate una foto haciendo esa actividad que te gusta.

1- Basado en la foto, escribe tres oraciones prediciendo el tipo de personalidad que la persona posee.
2- Lee las oraciones de tu foto y confirma si las predicciones son ciertas o ceracanas a tu personalidad.

En mi tiempo libre, me gusta hula hooping o jugar con mi perro.

Me gusta viajar y estar con la naturaleza.
# COIL Syllabus

## Calendar

<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
<th>Tool</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1</td>
<td>Introduction - Getting to know each other</td>
<td>Google Docs + Zoom</td>
<td>Day 1: Students will learn about the hybrid/COIL objectives, app variables, and policies. &lt;br&gt;Day 2: Students ask about their favorite hobby, music, other ideas? Students make short video about general topics before video conference! What is project goal? Mapping app variables? &lt;br&gt;Day 3: Video Conference &lt;br&gt;Homework: Reading on Geodatabase. MCC/TCC students share their thoughts on reading using Google docs.</td>
</tr>
<tr>
<td>Week 2</td>
<td>Technical language and developing a geodatabase</td>
<td>ArcGIS Online, ArcGIS Desktop, Zoom and Google Docs</td>
<td>Day 1: Develop a geodatabase &lt;br&gt;Day 2: Develop a geodatabase &lt;br&gt;Day 3: MCC/TCC students meet via Zoom to discuss progress on geodatabase. Support each other. 5-minute meeting. Submit screenshot of Zoom session with 2-sentence summary.</td>
</tr>
<tr>
<td>Week 3</td>
<td>Geodatabase, share, &amp; publish online.</td>
<td>ArcGIS, Zoom + Google Docs</td>
<td>Day 1: Submit geodatabase. Screenshot of completed geodatabase. &lt;br&gt;Day 2: Video conference to share geodatabase. &lt;br&gt;Day 3. ArcGIS Online account and organization. Begin preparation for publishing</td>
</tr>
</tbody>
</table>

---

*Step 1: Building a new feature class on a new file geodatabase (Using ArcCatalog)*

Open ArcCatalog. This is not ArcMap. You can search for ArcCatalog by typing it in the lower-right search in ArcMap.

Make a folder connection to the location you want your work stored.

Realice una conexión de carpeta a la ubicación donde desea guardar su trabajo.
Mapping App

MCC students write instructions for app

MCC students translate it into Spanish

TC students create app

TC students test app

ALL students collect data

Then you would go through the following directions to create domains. Right click on water.gdb and choose "properties".

En el lado derecho, cliq "Water"

Create Features

Water

Entra a los atributos y pruebe completo valores de temperatura y pH. Usa numerales.

Day 1: Travel  
Day 2: MCC students lead mapathon workshop in Colombia in Spanish.  
Day 2: MCC students share about their culture at Tecnológico Comfenalco.  
Day 3: MCC students join in on courses at Tecnológico Comfenalco.  
Day 4: Cultural experience?  
Day 5: Travel. |
## COIL Syllabus

### Week 4
- **Publish app and collect data**
  - ArcGIS Online, ArcGIS Desktop, Zoom and email/voicethread.

  **Day 1:** Publish app for water quality data collection.
  **Day 2:** Practice collecting data at home site.
  **Day 3:** Video Conference to share app.

### Week 5
- **Tecnológico Comfenalco students travel to MCC.**
  - ArcGIS Online, ArcGIS Desktop, Zoom and email/voicethread.

  **TC students**
  - **Day 1:** Travel
  - **Day 2:** Tecnológico Comfenalco students present Apps at MCC. MCC students attend.
  - **Day 3:** Tecnológico Comfenalco present about their culture at MCC. MCC students attend.
  - **Day 3:** Tecnológico Comfenalco students sit in on courses at MCC. MCC students attend.
  - **Day 3:** Tecnológico Comfenalco faculty will share their perspective as a part of the Global Education and International Services Guest Speaker Series.
  - **Day 4:** Cultural experience?
  - **Day 5:** Travel

- **MCC Students**
  - **Day 2:** MCC students attend all events
  - **Day 3:** Prepare for mapathon at TC
  - **Day 4:** Prepare for mapathon at TC

### Week 6
- **MCC students travel to TC**
  - Open street map

  **MCC Students**
  - **Day 1:** Travel
  - **Day 2:** MCC students lead mapathon workshop in Colombia in Spanish.
  - **Day 2:** MCC students share about their culture at Tecnológico Comfenalco.
  - **Day 3:** MCC students sit in on courses at Tecnológico Comfenalco.
  - **Day 4:** Cultural experience?
  - **Day 5:** Travel

Lessons Learned

Exceeded everyone’s expectation
-New career in GIS&T?

Challenges
-No process to transfer grant funds of a Subaward to an international organization
-United State banking forms were foreign to TC
-TC perspective, time consuming to acquire VISA’s.
-Although college took students abroad, there was not a process to use grant funds to purchase tickets.
-Give yourself a lot of time to purchase airline tickets.
Main Impact

1) Sustained Partnership with TC.

2) Virtual Internships with TC
   A) Assess changes in mangroves using remote sensing data.
   B) develop Python lab/translate
      Host: Comfenalco

3) New Virtual Internship Host
   Develop mapping app for citizens
      Host: Benemérita Universidad Autónoma de San Luis Potosí (Mexico).
Interested in Collaborating?

- Virtual Internship host
- Remote Sensing and ground-truthing
- Mapping app development
- GIS labs + Python Labs
- Grant Collaboration
New Hybrid Study Abroad or Fulbright Specialist visit summer 2021 or Jan 2022?
Thank you!
